

CARDIOVIT AT-102 G2

Easy, smart and state-of-the-art

SCHILLER
The Art of Diagnostics

CARDIOVIT AT-102 G2

The new generation ECG
CARDIOVIT AT-102 G2:

- ✦ Robust and reliable for hospitals and clinics
- ✦ Fast bidirectional Wi-Fi communication with HIS/EMR
- ✦ Best signal quality and diagnostic algorithms for adult and paediatric patients

STATE-OF-THE-ART TECHNOLOGY AND CONNECTIVITY

The CARDIOVIT AT-102 G2 features an 8" colour display with touch function keys. Moreover, its sealed alphanumeric keyboard ensures easy cleaning, making it highly suitable for the daily clinical routine. Smart Battery technology guarantees more than 8 hours of ECG recording.

Bidirectional communication allows for easy data access and fast transmission of ECG reports to EMR/HIS systems. Standard Wi-Fi and LAN connectivity, combined with ECG review on display and a large memory, supports paperless workflows and cost saving. When a paper report is necessary, customizable printout are available on the internal high resolution A4 thermal printer.

HIGH EFFICIENCY IN ANY WORKFLOW

ECG acquisition has never been easier and faster: Enter or download patient data with PDQ or worklist, acquire ECG, save, print and transmit data in twenty seconds using only one navigation key.

EASY 1-2-3 STEPS

- 1: Enter or download patient data
- 2: Control signal quality and lead reversal, and perform ECG
- 3: Review ECG before storing, exporting or printing

BEST SIGNAL QUALITY AND DIAGNOSTIC TOOLS

SCHILLER's most advanced algorithms are implemented in the CARDIOVIT AT-102 G2:

PAEDIATRIC ECG: Thanks to very high sampling frequency and a large frequency band up to 250 Hz, the CARDIOVIT AT-102 G2 offers optimal signal quality for paediatric ECG.

RESTING RHYTHM: With the CARDIOVIT AT-102 G2, resting rhythm can be recorded for up to 10 minutes. Full disclosure, HR trend and events can be reviewed, stored and printed, as well as transmitted to HIS/EMR in PDF, DICOM or HL7 format.

Internal high resolution
A4 thermal printer

Sealed alphanumeric keyboard,
easy to clean and highly hygienic

Touch function keys

Navigation keys allow high
efficiency in any workflow

Organize and safeguard
hospital assets and personal
items with a bin

Manoeuvre smoothly and
comfortably with easy-glide
wheels and a handle positioned
at just the right height

EXERCISE ECG: The CARDIOVIT AT-102 G2 can optionally perform basic exercise ECG with a large selection of protocols for treadmills and ergometers. A complete review and report of the test with trends, step table, interpretation template and event list are available. Exercise data can also be transmitted to HIS/EMR in different formats.

ETM WITH ETM SPORT: One of the industry's most renowned, simultaneous 12-lead ECG interpretation program for uncompromising quality and reliability.

ETM Sport is the first automated ECG interpretation module designed for athletes, based on the Seattle Criteria.

CCAA: SCHILLER's Culprit Coronary Artery Algorithm is used in emergency departments and outside the hospital whenever a fast decision on chest pain is required immediately. It locates the obstruction site in the coronary artery and thereby the size of the cardiac area at risk.
